

BRIGHT OPTIONS

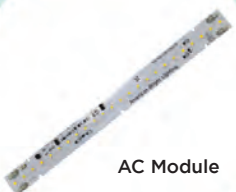

EzyLED™
PLCC w/IC

Since it first lit up the US market in 1995, American Bright Optoelectronics Corporation has enjoyed steady, consistent growth in multiple markets including General Lighting, Aircraft Interior Lighting, Gaming, Food & Beverage, Automotive, Horticulture Lighting, Signage, Industrial Automation, and Office Equipment. American Bright is a recognized leader in the lighting industry with global reach, engineering expertise and rapid customization solutions.

American Bright manufactures one of the industry's largest selection of AC LED modules and systems, DC LED modules, high power LEDs, SMT chips, EzyLEDs, UV LEDs, PLCCs, LED lamps, infrared LEDs, and flexible rope lighting.

At American Bright, our highly qualified design engineers are uniquely skilled to support state-of-the-art solutions from concept to creation.
